ABOUT ME

I am a passionate software developer pursuing a degree in Computer Science at Eötvös Loránd University in Budapest. Specializing in JavaScript, Python, and Ruby, with extensive experience in React and Next.js, I have worked on numerous projects, including my current task management app for the Pizza Hut branch at Király.

I previously trained at Trojan Innovations and completed an intensive bootcamp at Microverse, where I mastered full-stack development and collaborated in a remote, team-based environment. This experience sharpened my skills in adaptability, communication, and teamwork, simulating the realities of modern in-person and remote work.

Nowadays, I spend my time writing personal code and seeking new opportunities to further develop my skills, particularly in Full Stack and Data roles. I thrive in fast-paced environments and enjoy tackling challenges that push my technical boundaries.

WORK EXPERIENCE

[07/07/2021 – 08/09/2022]

Software developer(intern)

Trojan innovations

City: Lagos | **Country**: Nigeria

This was my first hands on experience with software, it was in an advertising company and my role was interacting with the advertisement posting website we managed to scale it to handle hundreds of users at once and i was involved in every step of the process

[03/05/2023 – 03/06/2024]

Full stack Developer(Bootcamp / Mentor)

Microverse

Link: <https://www.credential.net/ebe28b90-ad6d-49f5-bc9d-db209c48bc5d#gs.gfxwhq>

Collaborated with developers from around the world in a fully remote environment, simulating the modern workplace.

Progressed to become a mentor and code reviewer, helping fellow developers improve their code quality and troubleshooting techniques.

Built 30+ full-stack web and mobile applications, gaining proficiency in JavaScript, Ruby, Python, React, and Next.js.

Participated in daily stand-ups, pair programming sessions, code reviews, and project retrospectives, closely mimicking real-world development processes.

Developed strong problem-solving skills, consistently delivering projects on time while maintaining code quality.

Mastered essential tools and technologies like Git, GitHub, Rails, and RESTful APIs.

Enhanced soft skills in adaptability, effective communication, teamwork, and time management through constant collaboration and remote work simulations.

EDUCATION AND TRAINING

[Current] Bachelor

Eötvös Loránd University

City: Budapest | Country: Hungary | Field(s) of study: Computer Science | Level in EQF: EQF level 6

Key courses: Data Structures, Web Development, Machine Learning.

SKILLS

MY STACK

Programming Languages: JavaScript, TypeScript, Ruby, Python, SQL, JAVA, C# ,C

Web Technologies: React.js, Next.js, Node.js, Tailwind CSS, RESTful APIs

Database Systems: PostgreSQL, MongoDB, MySQL

Version Control: Git, GitHub, Webpack

Testing Tools: Jest, RuboCop, RSpec, Cypress

Specialized Areas: Authentication (Clerk, NextAuth), Payment Integration (Stripe), Webhooks

Other Tools & Technologies: Prisma, Stream, Stripe, Sentry

Scripting : html, css

COMMUNICATION AND INTERPERSONAL SKILLS

interpersonal skills

Effective Communication – Collaborating with international teams at Microverse required clear and concise communication across time zones, enabling efficient progress on projects.

Adaptability – Working in a remote environment simulated real-world remote work challenges, helping you quickly adapt to different tools, workflows, and working styles.

Teamwork – Pair programming and collaborative projects at Microverse taught you how to work harmoniously in a team, manage differing opinions, and contribute effectively.

Problem-Solving – Handling code reviews and tight deadlines strengthened your ability to find creative and efficient solutions under pressure.

Time Management – Juggling multiple projects while adhering to deadlines honed your organizational skills and ability to manage time effectively in a self-paced, remote setting.

Responsibility and Ownership – Building over 30 projects independently and with teams helped you take full responsibility for your contributions and ensure project quality.

Open-Mindedness – Exposure to diverse cultures and programming approaches in a global setting improved your ability to be open-minded and flexible in various work environments.

LANGUAGE SKILLS

Mother tongue(s): Igbo

Other language(s):

English

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

CREATIVE WORKS

[Current]

Priority Pro

Write here the description...Your task management app is a custom solution designed for the Pizza Hut branch at Király. It helps streamline task assignment, tracking, and prioritization for team members. Key features include task dependencies, time tracking, task prioritization, a collaborative dashboard, and real-time notifications. The app is built to enhance team productivity and ensure tasks are completed efficiently, with features tailored specifically to meet the needs of a busy restaurant environment.(NOT DONE YET)

[13/04/2024 – 05/06/2024]

MEET - UP

A modern video conferencing platform offering high-quality video calls, screen sharing, and real-time chat. Built with Next.js, Clerk for authentication, and Stream for video capabilities. i was tired of the limited cal time on zoom so i did some research and found the stream api and the rest is history

Link: <https://meet-up-phi.vercel.app/>

AIR BNB CLONE

Write hthis was just a test of my abitlity to selct what technologies suit different tasks it is An Airbnb clone allowing users to list, discover, and book accommodations. Features include user authentication, property listings, and a booking system.
